A hospital. While considering the various plans of the school question Judge Hill remarked that in addition to high schools, we need a hospital, where every physician could treat patients requiring hospital treatment. Improvements like high schools and hospitals would simply mean a doubling up in property values, which would be money well invested and Judge Hill's suggestion is worthy of serious consideration.

Christmas was enjoyed by most every body in San Angelo of course there were homes where there was a vacant chair, others where sickness brought sorrow, but on a whole every body was happy. With some it was baby's first Christmas and mothers would hang the tiny stocking on the stove poker and fill it with all sorts of rattles, and look forward to the time when the baby would crawl out of bed to see what Santa Klaus had brought. There were those who expected no end of remembrances, and did not of course receive as many as they had hoped for, there were those who looked the gift horse in the mouth and considered the pecuniary value of the gift, but the great majority were those who appreciated anything received for the simple thought of being remembered and not forgotten. The boys had a royal good time Christmas eve and made no distinction of persons when it came to showing their favors in the way of jokes and timely pleasantries, so on the whole San Angelo truly had a merry Christmas.

Health and Beauty. A poor complexion is usually the result of a torpid liver or irregular action of the bowels. Unless nature's refuse is carried off it will surely cause impure blood. Pimples, boils and other eruptions follow. This is nature's method of throwing off the poisons which the bowels failed to remove. DeWitt's Little Early Risers are world famous for remedying this condition. They stimulate the liver and promote regular and healthy action of the bowels but never cause griping, cramps or distress. Safe pills. J. W. Harris & Bros.
